

February 25, 2026

To Keyport Residents,

Due to the significant snowfall from Winter Storm Hernando, the Borough of Keyport Public Works Department, in coordination with outside contractors, will be working around the clock to remove excess snow from curb lines. This effort is necessary to widen roadways, improve visibility, and restore on-street parking wherever possible.

Beginning Thursday, February 26<sup>th</sup> at 8:00AM, and ending Friday, February 27<sup>th</sup> at 4:00PM the Borough will commence the second phase of snow removal operations. Crews will be working continuously (24 hours per day) until this phase is complete. Please note that exact start times on each street may vary depending on progress and conditions.

The following streets are included in Phase Two:

1. Elizabeth Street from Church to Main Street
2. Main Street from West Front to Highway 36

We respectfully request that all vehicles be removed from these streets during the scheduled work to allow crews to perform operations efficiently and safely.

Please utilize the municipal parking lots for your vehicles.

We appreciate your patience and cooperation as we work to make our roadways safe and accessible for all residents.

Thank you,  
Borough of Keyport Public Works
