

KEYPORT'S WATER STORY

Keyport Green Team invites you to explore our Municipal Water Story and share your water stories.

A municipal water story covers five key areas (local resources, community access, drinking water, wastewater, and stormwater) to guide and improve local water management.

THINGS TO CONSIDER:

- Where is your favorite place to see or access water?
- Have you been impacted by flooding in the municipality?
- Do you worry about your drinking water quality?
- What does a “living shoreline” mean to you?
